Purpose and Effect of the Hespeler Road Corridor

Secondary Plan: to provide a planning framework to guide future development and redevelopment in the Hespeler Road Corridor area. The Plan area includes three Protected Major Transit Station areas (PMTSA). The Official Plan Amendment will delineate the boundaries of the PMTSA, set minimum density targets, and establish land use designations to support the achievement of a transit-supportive built form.

How to Speak at the Council Public Meeting: If you plan to attend the meeting in-person and wish to register in advance to speak, you are asked to complete a delegation request form at **cambridge.ca/speak**

Please check the Council agenda at **events.cambridge.ca** the Thursday before the meeting to confirm this date and for a copy of the Plan and draft report.
