Construction Notice

Reconstruction of Victoria Street and Boullee Street

Stage 2 of the reconstruction of VictoriaStreet and Boullee Street in New Hamburg will get underway this May. The anticipated construction schedule is outlined below.

Boullee Street:

- Scope of Work: Reconstruction of Boullee Street from the endpoint of Stage 1 (Victoria Street) to Hamilton Road.
    - Infrastructure Improvements include:
        - Installation of new sanitary sewer systems
        - Upgrading of watermain infrastructure
        - Construction of concrete curbs and gutters
        - Addition of concrete sidewalks
        - Development of a multi-use trail
        - Reconstruction of the road base
- Construction on Boullee Street will be completed in two phases (Phase 2A and Phase 2B) to maintain access to Tri-County Mennonite Homes.
- Timeline: Tentatively scheduled for beginning of May to end of September, weather dependent

Victoria Street:

- Scope of Work: Removal and replacement of base asphalt; installation of multi use trail and concrete sidewalk; reconstruction of private driveways; landscape restoration
- Timeline: Tentatively scheduled for June 1 to June 30, weather dependent

Future Work - 2027:

- Final surface asphalt will be placed on Victoria Street and Boullee Street in 2027.

These improvements are intended to modernize local infrastructure, support future growth, and provide long-term benefits to both residents and business owners.

This information is available in accessible formats upon request

Traffic Concerns - Access to Businesses, Residences and Side Streets
The work will undoubtedly result in some inconveniences. Dust, noise and interruption of services cannot be eliminated entirely; however, the contractor will make all attempts to minimize these whenever possible. All residents are advised to use caution in the vicinity of excavations and construction equipment.

Construction activities are generally scheduled from 7 am to 7 pm with the occasional Saturday from 8 am to 7 pm if the contractor falls behind schedule.

Access to businesses, residences and intersecting local streets along Victoria Street and Boullee Street will be maintained to the greatest extent possible; however, disruptions will occur when construction activities are being completed directly adjacent to an entrance or local intersecting street.

The contractor will provide as much notice as possible to businesses and residences when construction activities are occurring adjacent to a property. If construction activities will make it such that you are unable to park in your driveway for a short duration (including overnight), you will be directed to alternate parking locations, such as an adjacent street

There may be periods of time when traffic will need to travel on a gravel surface, as well as times when traffic will need to be controlled with flag persons. Temporary signage indicating businesses are “Open and Accessible” will be provided for all businesses within the active stage of construction.

Please plan for some delays and travel carefully through the construction zone. Always follow and obey the construction traffic signage and traffic control persons when walking or driving through the construction zone for your safety and for the safety of the workers.

Grand River Transit (GRT) Service Changes
GRT buses may need to be rerouted. Please refer to the GRT website for the most current information on transit routes: https://www.grt.ca/en/schedules-maps/detours.aspx

Garbage and Recycling (for properties within the active construction limits only)
If you receive curbside waste collection and live/have a property in the construction area, please do the following during construction:

- Clearly mark your black and green carts and blue binswith your address number
- Put your black and green carts, blue bins andyard waste at the curb before 6:00 a.m. on your normal collection day

All waste will be taken by the contractor to a nearby side street for pickup. Your carts and bins will be returned to by the end of your collection day.

Visit the following websites to learn more about recent waste and recycle collection changes: www.regionofwaterloo.ca/carts and https://millerwaste.ca/municipal-waste-services/

This information is available in accessible formats upon request

Canada Post Mail Delivery (for properties within the active construction limits only)
Properties that receive door service mail delivery should not be affected while construction is taking place. If you do experience a disruption in your mail delivery, please contact Canada Post at 1-866-607-6301 or go to their website (www.canadapost.ca).

Restoration and Landscaping
The work on this project includes the reinstatement of affected driveways, sidewalks and any landscaping to pre-construction conditions or better. Only the affected portion of a driveway will be replaced/reinstated. **Prior to construction, the homeowner is also responsible for the removal and reinstallation of all underground sprinkler systems within the right-of-way.** Landscaping or planting materials within right-of-way should also be removed. If in doubt, please contact the inspector or contractor as noted below to determine if plantings will be disturbed during construction activities. The Contractor will maintain new sod for 60 days after placement. After 60 days, all sod maintenance and watering will become the property owner's responsibility, as it was prior to construction.

Temporary Water (Boullee Street)
As part of the reconstruction work the contractor will be required to supply and install a temporary watermain throughout the construction limits. The ends of these temporary watermains will be continuously flushed to assist in maintaining water quality. Please do not tamper with these temporary watermain systems.

Working Hours
Normal working hours are Monday to Friday from 7:00 a.m. to 7:00 pm. Occasional weekend work may occur from time to time.

Updates During Construction
Information about this project, including periodic updates will be available through the Township's Engage Wilmot platform: https://www.engagewr.ca/victoria-boullee-reconstruction

Contact Information
Any issues that arise during regular business hours should be communicated to the contractor's supervisor or the consultant's on-site inspector.

For after hour concerns that need to be addressed immediately, please call **(519) 280-5530** to have your concern directed to the contractor. Should an after-hour concern arise that can be addressed during regular work hours, please direct your concern to the contractor's site supervisor or the consultant's on-site inspector the following day.

The following is provided for your information:
