Public Consultation

Bleams Road Improvements
West of Fischer-Hallman Road to Trussler Road, Kitchener

We want your feedback

Share your comments with us as we plan for active transportation and road improvements on Bleams Road in Kitchener (west of Fischer-Hallman Road to Trussler Road).

This virtual public consultation opportunity is open from **February 14 to March 7, 2022 at EngageWR.ca/bleams-rd**

Preliminary designs

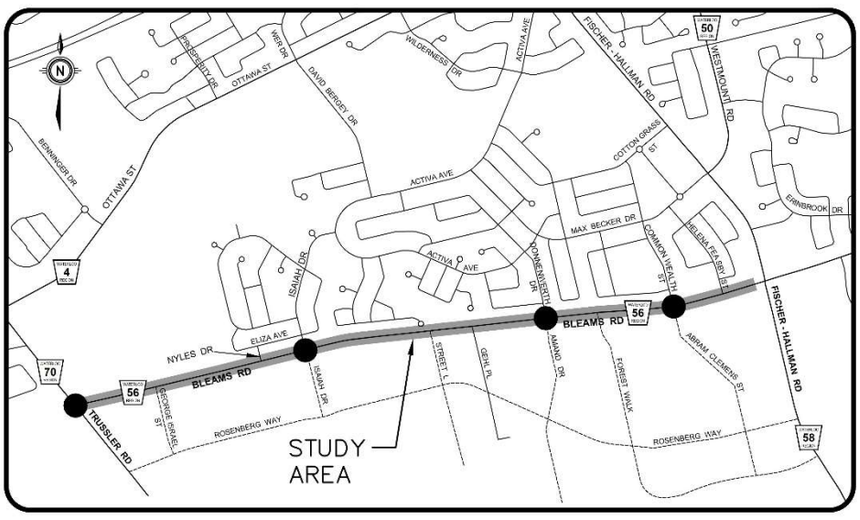

We have developed three design concepts for improvements along Bleams Road for your review and input. These preliminary designs outline intersections with either traffic signals, roundabouts or a hybrid concept that has signals at certain key intersections while roundabouts at others. You will also have further input into the type of pedstrian and cycling facilities along both sides of Bleams Road. We want to hear your comments and ideas on how we can make improvements for all modes of transportation.

Public consultation

Visit our Bleams Road project page at EngageWR.ca/bleams-rd and complete the online survey by March 7. Project documents, including frequently asked questions, are also available. If you have any additional questions about the project, please email us at droga@mte85.com or gproctor@regionofwaterloo.ca.

Project background:

This study will determine the need for improvements on Bleams Road, from just west of Fischer-Hallman Road to Trussler Road, to accommodate the development along Bleams Road.

Pedestrians, cyclists and motorists will be considered throughout the study to ensure safe and efficient crossings between developments on both sides of the roadway.

This study, technical expertise and your input, will help us determine which improvements are required and can be incorporated into the road design.
