Notice of Second Community-Building Open House

REVIEW OF THE BRESLAU SETTLEMENT PLAN POLICIES

The Township is hosting a second community-building open house to:

- Present a proposed preferred land use plan, sanitary servicing scheme/catchment areas and conceptual staging plan for the new urban limits of Breslau,
- Summarize the public feedback received to date;
- Highlight changes to the associated planning policies to appropriately implement the plans; and
- Update the next steps in this public consultation process.

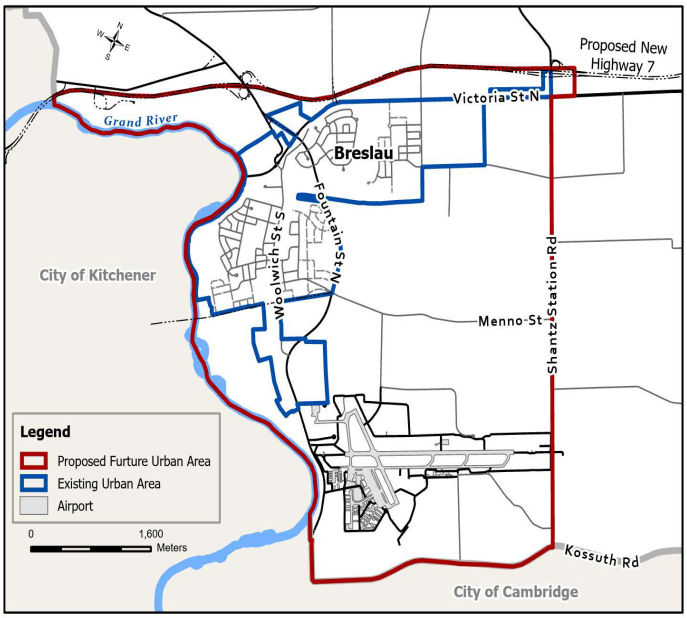

The community building open house will be held on:

Wednesday, June 26, 2024
between 4 and 7 pm
Breslau Community Centre – Empire Room
100 Andover Drive, Breslau

In June of 2023 the Township initiated a review of the Breslau Settlement Plan Policies in conjunction with reviewing the Official Plan and held a community-building open house to gather input on:

- The proposed new urban settlement limits of Breslau as established by ROPA #6 and approved by the Province in April of 2023;
- Three land use concepts and corresponding population projections within this new urban area as well as potential changes to existing land use designations within the current settlement limits; and
- Information on potential transportation and servicing strategies and the environmental analysis gaps that were identified.

The new urban limits of Breslau were scaled back by the Province in December of 2023 but, as of May 2024 have reverted to their April 2023 decision as shown on the inserted Map.

Following the 2023 community-building public open house, a number of community comments / surveys were provided to the Township that served as meaningful input in the development of the proposed preferred land use plan and changes to the associated planning policies. The Township is very enthusiastic for the opportunity to continue to collaborate with the entire community on this important project to:

- help shape the long-term vision for Breslau; and
- assist the Township in developing a preferred plan to manage future growth, facilitate the provision of services and protect the natural / heritage resources in Breslau.

Comments and information regarding this project are still welcome and encouraged. With the exception of personal information, all comments will become part of the Public Record and may be used in any future Township Report.

Project details and information are available on the Township's website (www.woolwich.ca) On Going Planning Items and link to Woolwich EngageWR (engagewr.ca/woolwich) to view the folder titled Breslau Secondary Plan Update.
