NOTICE OF EA COMPLETION

GREENHOUSE ROAD RECONSTRUCTION AND EXTENSION PROJECT

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT – SCHEDULE 'B'

The Township of Woolwich has completed a Municipal Class Environmental Assessment study for the reconstruction of Greenhouse Road from Highway 7 (Victoria Street North) to the Metrolinx Rail Corridor, in Breslau. This includes the extension of Greenhouse Road south of Kramp Road to the Metrolinx Corridor. The study has evaluated various alternatives for the cross-section design of the upgraded roadway. The intent of the project is to fully urbanize Greenhouse Road in this area to service existing and future development within the Breslau Settlement Area.

Figure 1. Greenhouse Road Study Area

Key elements of the preferred solution for the reconstruction and extension includes:

- A two-lane urbanized roadway (9 metres in width) within the built 20 metre right-of-way
- Sidewalks (1.8 metres in width) on each side of the roadway
- A culvert upgrade at the watercourse crossing location south of Kramp Road
- Stormwater management controls to provide storage and infiltration

The east boulevard of Greenhouse Road within the studied section may also be removed and widened in the future to the full 26 m right-of-way width, pending growth.

The study has been conducted in accordance with Schedule 'B' requirements of the Municipal Engineers Association "Municipal Class Environmental Assessment" manual (as recently amended in 2015) which is approved under the Ontario Environmental Assessment Act.

The Project File documenting the planning process is available for public review and comment for a period of 30 calendar days starting on **March 28th** and ending on **April 28th**. To facilitate public review of this document, the Project File report is available on the Township of Woolwich's Engage webpage: www.engagewr.ca/greenhouseroad-ea.
