

NOTICE OF STUDY COMMENCEMENT AND PUBLIC CONSULTATION 1

Kitchener Transportation and Mobility Plan

CONNECTED KITCHENER 2051

TMP Study

The City of Kitchener is developing a new Transportation and Mobility Plan (TMP) to guide the direction of the City's transportation system. The TMP will set the strategic direction for the City through the year 2051 and will:

- Recommend actions, strategies and networks to move Kitchener toward a more resilient, sustainable, equitable and efficient transportation system
- Build a roadmap to balance the future transportation needs of Kitchener residents and visitors across all modes: walking, cycling, transit, driving, micromobility and trucks

Process

This study follows Phases 1 and 2 of the Municipal Class Environmental Assessment process under the Environmental Assessment Act. The study follows Master Plan Approach 1, which takes a broad assessment at a regional or systems scale and provides support for future investigation of recommended projects.

Public Drop-In Event

Drop in for an information-sharing session to chat with the TMP study team and share your input:

Saturday November 1, 2025 - 10 a.m. to 1 p.m.
Kitchener Market - 300 King St. E.

Share Your Voice. Shape Our City.

At this point in the study, we are gathering input about transportation-related needs, issues and opportunities in Kitchener, and need your help to confirm our transportation vision and goals.

Visit at engagewr.ca/ConnectedKitchener to:

- Review the information boards and learn more about the study
- Submit comments to the mapping activity
- Complete the online questionnaire by November 22, 2025

With the exception of personal information, all comments will become part of the public record of the study. This notice first published October 31 2025.
