Project Information

Johnston Street (Patrick Street to End)

Patrick Street (Wellington Street North to End)

Wellington Street North (Lancaster Street West to Spring Valley Road)

Purpose of the Meeting:	To present to the public the proposed reconstruction details.
Project Description:	Replacement of existing sanitary sewers, watermain, road structure, sidewalk
Project Funding:	This project is funded by the ratepayers of Kitchener.
Construction Schedule:	Stage 1 of construction is anticipated to begin in July 2026 and to be completed by November 2026. Stage 2 of construction is anticipated to begin in April 2027 and to be completed by November 2027. Stage 3 of construction is anticipated to begin in April 2028 and to be completed by November 2028. Please refer to Construction Staging Plan for staging limits.
Contractor:	Bel-Air Excavating & Grading Ltd.
Project Management:	City of Kitchener Development Services Department, Engineering Services Division.
Personnel to Contact:	Should you have any questions or comments about this project and wish to speak with someone personally, you may contact: Licinio Costa, C.E.T., 519-783-8314, licinio.costa@kitchener.ca Patrick McLellan, P. Eng., 519-436-7815, pmclellan@walterfedy.com

Project Highlights

Johnston Street

- Reconstruct the roadway, install new curb and gutter, replace watermain, storm sewer and sanitary sewer and private services to property line
- With the introduction of the new curb and gutter, the roadway width will be narrowed from its current existing width of 9.4m-10.3m +/- to the new roadway width of 7.0 metres.
- The existing 1.5m wide concrete sidewalk on the north side of the roadway will be replaced with new 1.5m wide concrete sidewalk.
- Driveway aprons will be replaced with concrete aprons.
- Some boulevard trees may be impacted by the installation of the new underground services and therefore may need to be removed. Replacement trees will be planted, as required, where space permits

Please refer to the drawings to view the design for these improvements

Project Highlights

Patrick Street

- Reconstruct the roadway, install new curb and gutter, replace watermain, storm sewer and sanitary sewer and private services to property line
- The roadway width will be narrowed from its current existing width of 8.0m +/- to the new roadway width of 7.0 metres.
- The existing 1.5m wide concrete sidewalk on the east side of the roadway will be replaced with new 1.8m wide concrete sidewalk from Wellington Street to Johnston Street.
- Installation of new continuous sidewalk at the Wellington Street and Patrick Street intersection.
- Driveway aprons will be replaced with concrete aprons.
- Some boulevard trees may be impacted by the installation of the new underground services and therefore may need to be removed. Replacement trees will be planted, as required, where space permits

Please refer to the drawings to view the design for these improvements

Project Highlights

Wellington Street North

- Reconstruct the roadway, install new curb and gutter, replace watermain, storm sewer and sanitary sewer and private services to property line
- The roadway width will be narrowed from its current existing width of 13.7m-17.0m +/- to the new roadway width of 12.6m-14.0 metres.
- All existing sidewalk will be replaced with new concrete sidewalk. Sidewalk widths will vary between 1.5m and 1.8m.
- Installation of one-way in-boulevard 1.6m wide asphalt cycle tracks on both sides of the road.
- Installation of new continuous sidewalk at the Wellington Street and Patrick Street intersection.
- Removal of existing railway bridge and bridge abutments.
- Driveway aprons will be replaced with concrete aprons.
- Some boulevard trees will need to be removed to install the new underground services; however, replacement trees will be planted where space permits

Please refer to the drawings to view the design for these improvements
