

hello neighbours!

It takes a community to create homes for all;

and while 5,000 individuals and families eagerly wait for affordable housing, your community has the opportunity to make an impact.

An innovative, environmentally friendly alternative housing project is coming to **127-161 Bechtel Street**. This project aligns with the City of Cambridge and Region of Waterloo community-driven strategic plans that promote the development of vibrant, affordable neighbourhoods. We look forward to working with you to design and build welcoming and innovative homes in your community.

We hope you will engage with us in the following ways:
