Open House & Public Information Centre **Petersburg Water System Replacement**

Dear Resident/Property Owner:

As part of transitioning the former Knipfel Private Drinking Water System to the Petersburg Distribution Water System the Township of Wilmot is preparing to replace the existing watermain and water services on Deerfield Avenue, Alice Crescent, Redford Drive, Notre Dame Drive from Snyder's Road to the railway tracks, and Snyder's Road East from Notre Dame Drive to 1745 Snyder's Road East to meet current standards.

Construction will be phased over 2 years, beginning in the summer of 2026 and will consist of replacing the existing private watermain with a new Municipal Water System, install new water services to the property line as well as road rehabilitation, drainage and active transportation.

Specific improvements scheduled for each street are:

Deerfield Ave., Alice Cres. and Redford Dr.

- Replace existing watermain
- Replace existing water services to property line
- Restore roadway/shoulders once watermain is installed

Notre Dame Dr. and Snyder's Rd. E.

- Install new watermain
- Install new water services to property line
- Restore affected asphalt roadway, curb & gutter and sidewalks to existing conditions

You are invited to attend the Open House/Public Information Centre (PIC) for this project that will be held at the St. Agatha Community Centre.

The purpose of this Open House/PIC is to present the watermain design and servicing options to the residents and to obtain feedback from the public on the proposed roadway improvements.

The Open House/PIC will present design options for the roadway rehabilitation including a semi-urban cross section with no curbs and a wider asphalt surface or an urban cross section with curb and gutter, maintaining the current asphalt width.

This information is available in accessible formats upon request

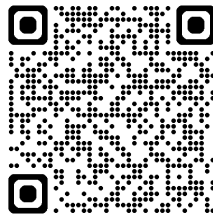

Feedback will be collected to inform the final design with recommendations presented to Council prior to completing the final design.

Schedule:	Public Information Centre	February 19 th , 2026
	Recommendation to Council	March 23 rd , 2026
	Final Design Drawings	April 2026
	Tender/Award	May/June 2026
	Construction	June/July 2026 - December 2027

When: February 19th, 2026, 6pm – 8pm

Where: St. Agatha Community Centre (1791 Erbs Road, St. Agatha)

To keep up to date with this project, learn more about the project and review design drawings please visit the Engage Wilmot project page <https://www.engagewr.ca/petersburg-water-system> or by scanning the QR code below.

Participants are asked to complete the Resident/Owner questionnaire to assist our team in understanding concerns/issues and to provide comments/questions for the project by **March 6th, 2026**. Feedback received from this questionnaire will be reported to Council on March 23rd, 2026. Paper copies of the questionnaire will be available at the Open House/PIC and a digital version will be available on Engage Wilmot by following the link/QR code found above. Please submit the completed questionnaire in person at the PIC, or the Public Works Counter at the Township Administrative Office or online via email.

Because you live, work or own property near or within the immediate project area, we want to make you aware of this project. If you are a property owner with business or residential tenants, please pass this information along to them.

The Township of Wilmot is committed to keeping you informed during construction. Please reach out to your Township of Wilmot project team at any time.

Regards,

Joey Shearer, C. Tech.
