Asphalt Update

Reconstruction of Victoria Street and Boullee Street

What's Happening?

The asphalt recently placed on Victoria Street does not meet the quality standards specified within the Contract per the Ontario Standards and Specifications (OPSS). However, to ensure safe and effective winter maintenance operations, and due to current weather conditions, the roadway will remain in place temporarily until the spring.

As the asphalt does not meet the standards the Contractor will be responsible to correct this within the current contractual obligations. No additions to the Contract have been approved to correct this deficiency.

What to Expect This Winter?

The current surface will remain in place and be monitored throughout the winter season until full replacement occurs in the spring. No major disruptions are currently scheduled during the winter months.

If you notice any issues that need attention during the winter, please contact the Township or WalterFedy using the information provided below.

We appreciate your continued patience as we work diligently to renew our aging infrastructure. Further updates will be shared in early spring.

This information is available in accessible formats upon request

Contact Information

For any issues or concerns that arise during the winter or early spring, please direct your inquiries to either the Township or Consultant contacts listed below or at engineering@wilmot.ca.

Construction Concerns/Emergencies - After Hours and Weekends
