Region of Waterloo

Public Consultation Centre #2
Schedule 'C' Class Environmental Assessment for

University Avenue (Regional Road 57) Improvements
Albert Street to Weber Street
City of Waterloo

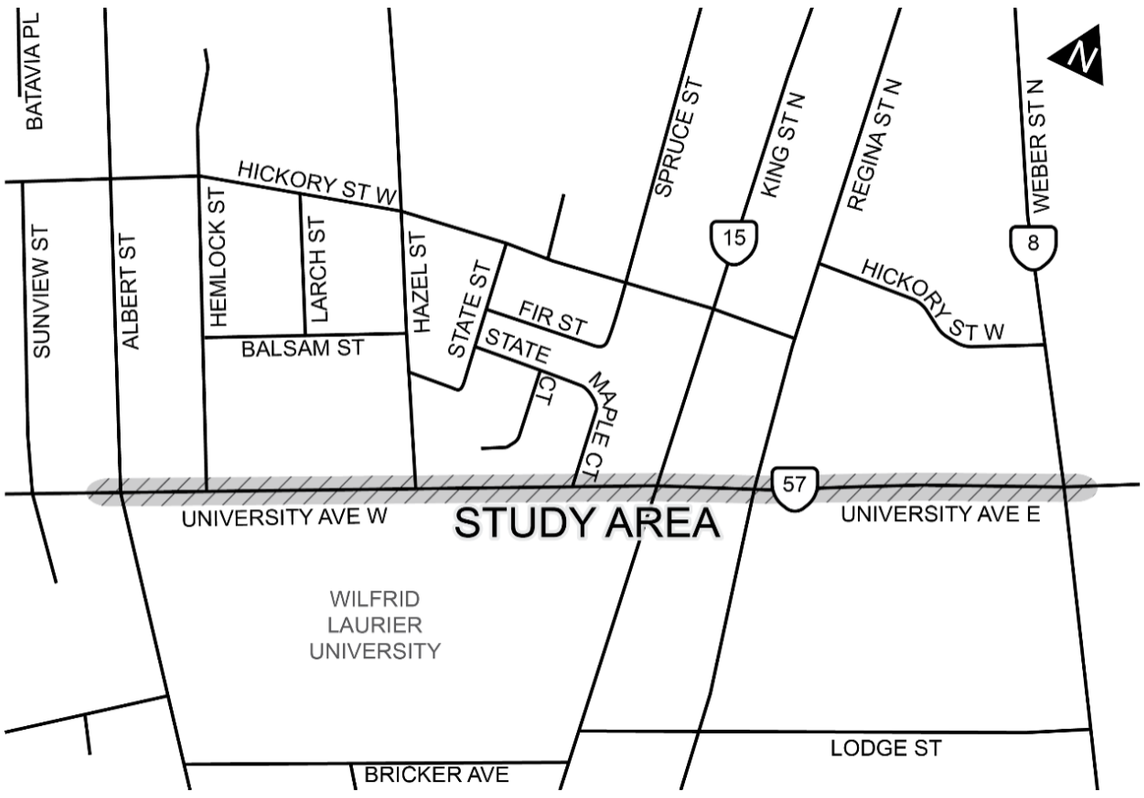

You are invited to our second Public Consultation Centre to provide your input into the planning of the University Avenue Improvements.

The video presentation for the Public Consultation Centre will be available online on the Engage Waterloo Region project page between **March 8, 2022 and April 8, 2022** at: www.engagewr.ca/University-Ave.

Background

The Regional Municipality of Waterloo is undertaking a Schedule "C" Municipal Class Environmental Assessment (Class EA) for improvements to the University Avenue (Regional Road 57) corridor from Albert Street to Weber Street in the City of Waterloo. Improvements along University Avenue (Regional Road 57) are being considered to improve roadway and underground infrastructure, active transportation facilities and traffic operations along the corridor.

The Active Transportation Master Plan (ATMP) has identified this section of road for the installation of an on-road bike lane.

The Process

The study is being conducted in accordance with the requirements of a Municipal Class Environmental Assessment, which is an approved process under the Ontario Environmental Assessment Act (last amended in 2020).

This Public Consultation Centre is designed to provide interested members of the public, local businesses, community, and agencies the opportunity to receive an update on the project work completed to date and discuss project issues.

Community Involvement

The Region of Waterloo encourages members of the public, stakeholder groups, and agencies to actively participate in this study by attending public consultation opportunities and/or contacting staff directly with comments or questions. If you wish to be added to the project mailing list, or would like further information on the project and any future project meetings, please visit our website at www.regionofwaterloo.ca or contact:
